

Solar Installers (Electricians & Roofers)

Location: Stoke-on-Trent

Electrician Day Rate: £165 per day

Roofer Day Rate: £140 per day

Company Background:

Solarplicity are a leading provider of renewable solar PV technologies, helping homeowners as well as businesses throughout the United Kingdom to discover the benefits of cleaner, greener energy.

We are looking to recruit Roofers and Solar PV Electricians (if you do not have Solar PV experience then training will be provided, we need Electricians to have 17th Edition).

The role:

We are working with Stoke-City Council on a community project where we are installing Solar Panels on Housing Association properties. This is an exciting opportunity and we would like enthusiastic candidates to join the team!

Experience in installing solar PV would be beneficial, although training can & will be provided. Training will take place at either our head office in Ware or at our Stoke-on-Trent site.

The successful candidate will be working as part of an installation team and typical duties will include:

- Installing solar panels on rooftops.
- Running cables, trunking, conduit and cable trays (Electrician).

Electrician:

- 17th Edition Electrical Qualification.
- H&S awareness, working at height, CSCS card all beneficial.

Roofer:

- Experienced Roofer.
- H&S awareness, working at height, CSCS card all beneficial.
